DETAILED ACTION

Claims

1. Claims 1-18 are pending.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 22 January 2004 was considered by the examiner.

Claim Objections

3. Claims 1 and 18 are objected to because of the following informalities: the phrase "capable of holding such as pharmaceutical related items" could be simplified to read -- for pharmaceutical use--.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as failing to set forth the subject matter which applicant(s) regard as their invention. Evidence that claims 1-18 fail(s) to correspond in scope with that which applicant(s) regard as the invention can be found in the specification in paragraphs 0007 and 0021. In the specification, applicant stated that the high density polyethylene layer is oriented, and this statement indicates that the invention is different from what is defined in the claim(s) because the claims do not describe the high density polyethylene layer as oriented.

Please clarify the claims.

Citation as of Interest

6. Wilkie (US 5,981,047) is cited as of interest for teaching HDPE (col. 8, line 37) and clay adhesion enhancers (col. 8, line 53) in cold seal release systems.
